The only UK-wide child protection charity dedicated solely to preventing child sexual abuse

Our vision is a world in which children’s right to live free from abuse and exploitation becomes a reality.

Our mission is to prevent the sexual abuse of children and young people by working with protective adults, those affected by abuse and those perpetrating it, including young people with harmful sexual behaviour.

Every year we help thousands of people take action to protect children from harm.

We know child sexual abuse is preventable, not inevitable.

Please help us to keep children safe.

Our face-to-face engagement with young people, families and offenders.

Keeping children safe by working with people who have been accessing sexual images of children - to ensure they never to it again - and with the families of offenders who need sound information and support. We also work with young people who have fallen into trouble online and their families.

“Absolutely brilliant … a God-send at a time of huge trauma for the whole family. Professional, reliable, honest and encouraging.”

Our Parents Protect! programme

Protecting children from sexual abuse by working with the adults who can keep them safe - the parents, carers and guardians who need information, knowledge and tools.

“The session provided a safe place for parents and guardians to discuss sensitive issues while providing support, advice and guidance. We’ve had excellent feedback.”

Our services for professionals on the frontline of child protection

Our range of services for organisations and professionals includes providing expert witness to the family courts, working with local authorities, and helping organisations be as safe as they can be for children and young people. We also deliver child sexual abuse and exploitation training.

“Excellent training, very relevant and helpful in my practice. Interesting research and well presented. Really enjoyed this training - would like more of the same.”

How we help

Since 1992, our expert team recruited from child protection police officers, probation officers, social workers, health and education staff, psychologists and counsellors, has been working tirelessly for the protection of children.

We develop and run services that help protect children from harm:

Our Stop It Now! helpline
For adults with concerns about child sexual abuse to get advice and support. All callers are given practical actions to help prevent abuse. Callers include those who want help to manage their inappropriate thoughts and behaviour towards children, adults who spot concerning behaviour in others, and professionals looking for advice and support.

“You’ve been the light at the end of our tunnel. We cannot thank you enough.”

Our internet offending deterrence campaign
Which drives home to offenders the impact of sexual abuse, the consequences of viewing sexual images of children online, and prompts behaviour change – to stop and stay stopped.

“Was dreading calling. Disgusted and revolted by my behaviour. Need help. Thanks for treating me with respect but not allowing excuses.”
